Qualification LC031

Name   : Juanrico Alvaro

1. Login page

This is how the login page looks like, it will throw an error if user give a wrong input. The constraint are Username must be filled, Username must be at least 5 characters , Password must be filled, Password must be at least 8 characters, and Password must not only contain number. In here there is business logo on top, and username and password field in the middle, and lastly log in button on the bottom.
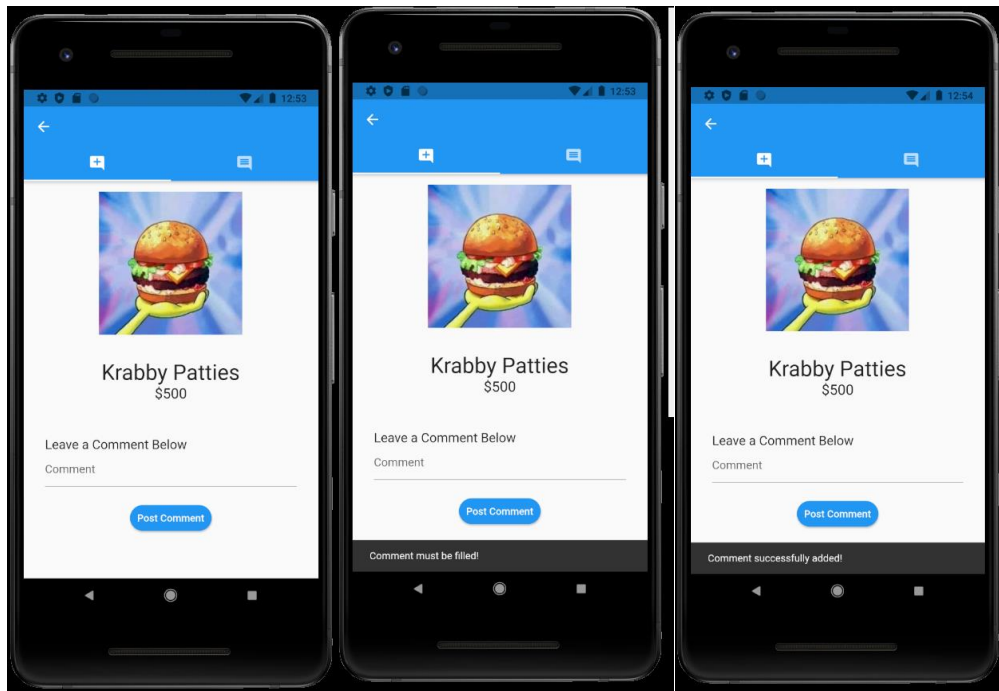

2. Home Page

In this page there are slider(carousel) and navigation bar that show the username that can be seen on picture 3 and also some infographic like we see on the picture 2. For the top right corner we can also access the popup menu that will let us change the theme of the app from light to black or black to light.
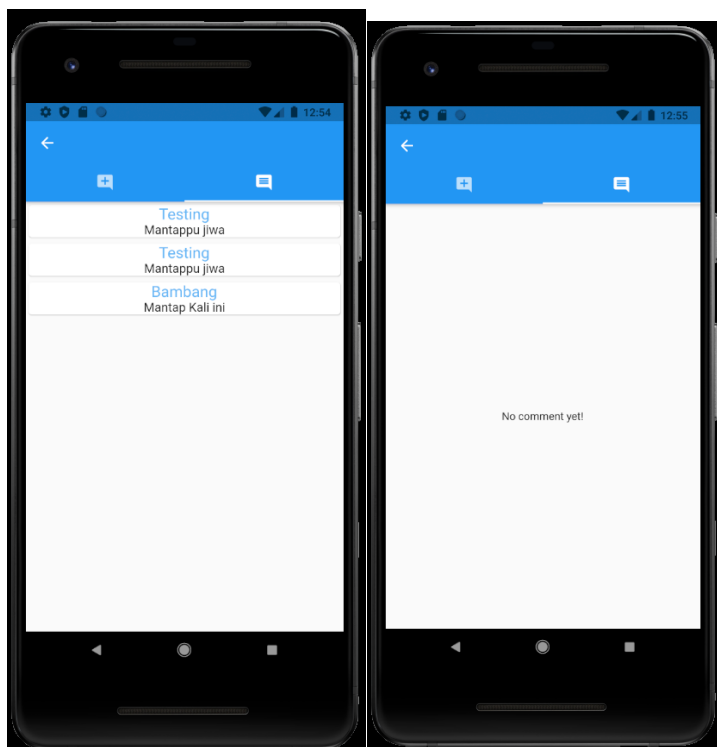

3. Product list

In this page we can see that it will list all of the menu that this app offer and some menu information like image, price (definitely not dollars), and details to access the detail page of the product.

4. Product Detail

This is the first tab of the product detail page where we can see that the image of the item will be shown here and its name along with the price. Below that there is also a text field that user can interract with. User can leave a comment there and the comment field must be filled.

For the second tab, it will show the comment that is leaved by the user and will show "Np o comment yet!" when there is no comment for that sepcific item.
